July 10, 2020

Hello All,

I Hope this email finds you well. Just wanted to send you all a quick update. The outdoor visits continue and are going well. Thank You for your continued patience as we maneuver through this Pandemic together. Just a reminder that you will be asked a number of screening questions when you book your visit. I also want to remind everyone that the visits continue to be limited to 2 people and both will be screened upon booking the visit, then you will be screened again and some of the questions repeated upon arrival for the visit. Please remember we cannot allow anyone to visit if the prescreening was not completed over the phone.

Our weekly testing continues. All staff tested on Thursday July 2nd were Negative with the exception of one employee whose result was "inconclusive". This result is neither positive or negative. Because of the guidelines and in the spirit of caution inconclusive results are treated as positive. That means that the employee is currently not working in the building. The employee is experiencing no symptoms and there are no residents experiencing symptoms. We will update everyone when we receive our test results from Thursday the 9th.

There is nothing new to report in terms of the current restrictions. We will let you know when there is anything new to report.

Have a wonderful weekend and week.

Take Care!

Dawn Davis RN DNS
