October 19, 2020

Hello, families, residents, staff and friends,

It is with a very heavy heart that I share that we lost 2 of our resident family members last night. Our thoughts and prayers go to their families at this very painful time. We shared a prayer together today.

The rest of our test results are in. We currently have 15 residents who had Positive results and 1 Inconclusive result that we are treating as positive. If your loved one has symptoms that change or develop, you will receive a call from our nursing team. Again, we are very busy, and would be happy to return a call if you leave a number with Rachel. We remain in daily contact with DPH and following their guidance.

We currently have 5 staff members out with positive results for Covid19. All have some symptoms and we hope they recover quickly.

Thank you for your ongoing prayers and kind thoughts.

Kindly,

A handwritten signature in black ink that reads "Luanne Rogers". The signature is fluid and cursive, with a large loop at the end of the last name.
