November 24, 2020

Thank you all for your ongoing support and prayers. All are healing and we are ever so grateful for the kindness you have shown our staff and understanding of the restrictions, and working with us. You are all a Blessing!

You are what we are thankful for.

May your celebrations of Thanksgiving include safe, intimate (immediate family) gatherings. Your health and well being is important to us.

It is clear that the increasing substantial transmission of Covid19 in the community and state is taxing the capabilities of the Laboratories processing tests. Our tests are done with the State Lab in Concord. I finally have all my results back today from last week. Sadly, we had one staff member test positive, asymptomatic and is quarantined. This does not allow us to be out of outbreak status. We begin again to aim to have no new POS results over the next 2 weeks. We have repeatedly discusses the high transmission in our local community and counseled all to celebrate Thanksgiving with those in their households only, wear a mask and stay away from crowds.

We will test again tomorrow... Wednesday, this week, because of the holiday. I now have online access to get our results as soon as possible and now have to wait for faxes to come.

Kindly,

A handwritten signature in black ink that reads "Luanne Rogers". The signature is fluid and cursive, with a large, sweeping flourish at the end.
