January 15, 2021

Hello families, residents, teammates and friends,

It has been a busy and positive week.

**TESTING:** We tested on Tuesday and all results were negative for COVID-19, all staff and residents. We need another good week of testing again on Tuesday!

**VACCINE:** We will be holding our second Walgreens vaccination clinic on Monday 1/18. For all those who received their 1st dose on 12/28, this 2nd dose will complete their vaccination for COVID-19. This includes all but 2 residents and it looks like we have almost 70% of staff signed up as well. We will have a 3rd clinic on 2/8 for all that get their first dose on Monday 1/18. We can not start anyone new in this program at this 3rd clinic. We are waiting to learn how we can vaccinate any new residents going forward. There are many moving pieces in the puzzle of vaccinating all of NH.

<https://www.nh.gov/covid19/resources-guidance/vaccination-planning.htm> This link will take you to information about vaccination planning in the State of NH. If you or anyone you know wants information about when they can get the vaccine. Check it out.

***Anyone over the age of 65*** will fall in the ***1B category*** which will allow folks to start registering at community based clinics.

You can check phases through this link: <https://www.vaccines.nh.gov/>

**PHASE 1B: Scheduling Begins on 1/22/2021 at 8:00AM and Vaccinations Start on 1/26/2021.**

My goal is to keep you informed about what is happening here at St. Teresa, but also help you stay informed about how you can care for yourself and your loved ones during this pandemic.

We are all hoping this vaccine will lead us back to a "Normal" world again, but can not change any practices until the State and Federal agencies agree to next steps.

**In the interim, wear a mask, stay away from crowds, wash your hands and get the vaccine when you can.**

Stay safe and well!

Kindly,

A handwritten signature in black ink that reads "Luanne Rogers".
