

January 21, 2021

Hello families, residents, teammates and friends,

It has been a busy and positive week.

**Testing update:** We tested on Tuesday, 1/19, and all our results came back negative for COVID-19, thank the Lord! This was our second week and the Manchester Public Health department has cleared us and we are again open to admissions. Those admissions will be quarantined for 14 days. We will continue testing, every Monday and Thursday, as required until the positivity in Hillsborough County falls below 10%. While the % did drop week-over-week, it still remains high.

|                     |       |    |       |     |
|---------------------|-------|----|-------|-----|
| Hillsborough County | 33011 | NH | 17.6% | Red |
|---------------------|-------|----|-------|-----|

**Vaccine update:** We held our second vaccine clinic with Walgreens on Monday 1/18. This clinic allowed those to get their second dose and others to start their series. Our final clinic will be February 8th. All, but one, of our residents have received both doses that should be fully effective in 2 weeks. About 65% of our staff have received the vaccine as well. Any staff member will still be able to access the vaccine through the community fixed sites. We will keep this information updated for our staff and continue educating. We have had no significant side effects, sore arms, aches, headache, lasting about 24 hrs. We will also share with new team mates as they are hired. I have reached out to our Walgreens contact to see how we might continue to vaccinate new admissions. He is looking into it for us.

**Virtual and window visits:** We can resume our living room window visits, so just like our video calls, Please call to make any appointment. Rachel is happy to schedule you. And perhaps a hair appointment can be done before?

Let us know if you need anything and remember Phase 1b opens tomorrow in NH. You can schedule by calling or going on line. Wear a mask, stay away from crowds, wash your hands and get the vaccine when you can.

**PHASE 1B: Scheduling Begins on 1/22/2021 at 8:00AM and Vaccinations Start on 1/26/2021.**

Kindly,

Luanne Rogers  
Administrator

COVID-19 **QUESTIONS?**

CALL **2.1.1**

Or visit **nh.gov/covid19**

COVID-19 specific call-takers are available Monday through Friday 8am-7pm and Saturdays 8am-5pm.  
2-1-1 NH is available 24/7.
