February 5, 2021

Hello families, residents, staff and friends,

Testing: We tested all working staff twice this week, Monday and Thursday. We have negative results for all again this week. We will continue testing twice weekly until Hillsborough account fall below 10% positivity in testing, and stays that way for 2 weeks. It has been dropping about 1% weekly since our high of 18+% and we are currently at 15.3%.

Vaccine: Monday, 2/8, will be our final clinic as we understand from Walgreens in our partnership program. We have 25 staff getting their 2nd doses. One more resident getting her 2nd dose as well. I do not have a plan to vaccinate new admissions or those who are admitted for LTC yet. We are promised a plan is coming. Stay tuned for the good news when I receive it.

We are decorating with hearts and red and pink. Our Valentine stations are set up, so we are sure everyone will get a Valentine. We are hoping you can call us to schedule a valentine call or window visit.

We are planning a **Winter Sparkle** event for our staff. They are working so hard and keeping safe, so we want to celebrate them. So on Thursday 2/18 we hope to add sparkle to their day and eyes.

Stay safe and remember to wear your mask, get signed up for vaccine when your time comes.

If any questions about the vaccine, call 211.

Kindly,
