April 30, 2021

Hello residents, families, staff and friends:

A busy week for us with lots to share. First, **please let us know about Mother's Day** and if you want to visit **no later than Tuesday please.**

Testing: We tested on Monday, all staff and residents, and we had NO positive findings. The Manchester department of health has closed our watch status. All good news.

We remain a Medium, greater than 5%, positivity city in Manchester – this week reported at 5.8%. This will keep us on weekly testing of staff until we are 2 weeks under 5%.

Lots of news this week about Vaccination status and restriction lessening. **It becomes even more important that we know YOUR vaccination status.**

As we work to implement our operational changes for visits, we must also adhere to our core principles of Covid-19 infection prevention. We need consider vaccination status of residents and visitors, and plan for these contingencies. It does feel like a bit of a juggling act, but we are very excited to have you visit. More to come.... Remember that we must still screen all visitors for symptoms and temperature.

I will keep you apprised of the changes we make.

The Courtyard is open, AND we are ordering new furniture that will take 4-6 weeks to get here. Have a lovely weekend!

Kindly,

Luanne Rogers, LNHA
Administrator
