Hello, residents, families, staff and friends!

From all of us to all the Fathers we know and love, we thank you for all you do for your families. **Happy Father's Day!**

We have exciting news, our courtyard furniture arrived this week, except for our RED umbrellas to match our new striped seats. It is reported the chairs are much more comfortable and supportive. I have discovered we have some sun worshipers. Hats and Sun lotion are encouraged. 😊

So we christened the Furniture with Cold Beers and pretzels for all takers. Everyone vaccinated to enjoy the beautiful day!

On Father's Day, Visits have been scheduled as you requested. It is exciting to see you taking advantage of outings with your loved ones as well. Remember to call us to plan such an outing in advance. Visits

still need to be scheduled as well, we are working to make requests work. It is wonderful to see folks gathering and lovely smiles when outside.

We continue to test unvaccinated staff each week. There have been no Positive results. Everyone is reminded to stay safe when they are out in the community. Unfortunately, while Manchester's numbers are low, they are rising. Take care!

Kindly,

Luanne Rogers, LNHA

Administrator
