July 25, 2021

Good Morning,

Sadly, I need to share that we sent a VACCINATED resident out to the hospital and we have learned that the patient tested positive for Covid-19 at the hospital.

We are testing all residents and staff – today with Binax now 15-minute tests and tomorrow with PCR testing to the state lab.

All visits are cancelled, all residents are restricted to their rooms. We are reporting out positive test result to Manchester public health and will follow their guidance.

We will keep you informed. Please stay safe.

Kindly,

Luanne Rogers, LNHA
Administrator
