December 15, 2022

To our Residents and Family members:

We would like to provide you with an update as to the status of Covid 19 in the facility. As of this morning we now have 3 positive staff and only 1 positive resident. We are continuing to test our residents every other day as well as our staff. All staff who are positive are quarantined at home. Our positive resident remains on Transmission Based Precautions. At this time- all doors into the facility will be locked, to ensure that our visitors are given proper infection control education. Staff is wearing N95 masks and eye protection and we ask that our families wear masks when they are in the building. If you do decide to visit, we strongly encourage mask use and social distancing while visiting with your resident. We are in contact with the Manchester Department of Public Health and will keep you all informed to changes as they occur.

UPDATE: In addition to our previous update we now have 1 new positive resident. Our total positive cases are now: 2 residents and 3 staff. Please see the update from this morning if you have not already.

Warm Regards,

Diane Brace, RN
Interim Director of Nursing Services
St. Teresa Rehabilitation & Nursing Center
