December 21, 2022

To our Residents and Family members:

We would like to provide you with an update as to the status of Covid 19 in the facility. As of this morning we have 1 additional positive resident. At this time the 3 staff cases and 1 resident case have resolved, the staff have returned to work. This means we currently have 2 active positive cases. We are continuing to test our residents every other day as well as our staff. Our positive residents remain on Transmission Based Precautions. Staff are continuing to wear N95 masks and eye protection and we ask that our families wear masks when they are in the building. If you do decide to visit, we strongly encourage mask use and social distancing while visiting with your resident. We are in contact with the Manchester Department of Public Health and will keep you all informed to changes as they occur.

Warm Regards,

Diane Brace, RN
Interim Director of Nursing Services
St. Teresa Rehabilitation & Nursing Center
